

GOLDSTRIKE TRUNK LID FLAG MOUNT

Parts Included:	1	R BRACKET
	1	L BRACKET
	1	HARDWARE KIT

INSTALLATION INSTRUCTIONS:

1. Park on a level surface and shut off the motorcycle. Lift motorcycle onto its center stand if available. Ensure the engine has time to cool before installation.
2. Decide which side of your motorcycle you want to mount the flag and choose the correct bracket. They are marked L & R.
3. Remove the seat.
4. Remove the passenger backrest. There are 6 screws inside the trunk (FIG.1) You must also remove the armrests plugs or armrests, two screws each. The screws are located inside the trunk near the hinges. See the arrows (FIG.1)
5. Unplug the backrest from the wiring harness and set it aside.
6. Remove the 2 outer screws securing the trunk lid to the hinge. (FIG.2)
7. Place (2) trunk mount spacers into holes followed by the chosen bracket (FIG.3)
8. Place 1 of the included paint protect film patches under the bracket on the trunk lid. (FIG.2)
9. Use included 25mm long screws and washer to secure bracket. Torque to 9.0N-m. / 6.6lbf.ft (FIG.2,3)
10. Close trunk lid and position 2nd paint protect film patch under bracket on lower trunk outer body panel.
11. Install 3/4" button head cap screw with washer and lock washer through bracket and into flag mast. A quality liquid thread locker should be used here.

For lighted flag products:

1. Route as shown (FIG.2)
2. The wire will pass behind the black panel at the side of the seating area and under the seat.
3. Move the trunk lid up and down and observe the wire. Check for good clearance.
4. Refer to instructions included with flag for making final wiring connections.

FIG.1

WARNING:

This indication alerts you to the fact that ignoring the contents described herein can result in potential serious injury or death if not followed.

CAUTION:

This indication alerts you to the fact that ignoring the contents described herein can or will result in material damage and/or personal injury.

ATTENTION:
